

Safety

To the greatest degree possible, the administration and staff of SDIC is committed to assisting representatives of its members in taking necessary and practical measures to prevent occupational accidents and illnesses as they provide for personal safety and health of their employees.

[Safety Policy](#)

A written statement regarding the Accident & Prevention Program that contain the employer's philosophy regarding accident and illness prevention. The Safety Program Policy Statement is the foundation for all program activities. [Download the Sample Approved Policy & Procedures.](#)

[Loss Control](#)

The SDIC pledges to provide the necessary assistance to its members and to make available resources that will be required by members to comply with elements of the Accident and Illness Prevention Program. SDIC provides a 5% premium discount and expert claims analysis loss reports.

[Compliance](#)

Health and safety checklists were developed to help the members of SDIC recognize, evaluate, and identify hazardous conditions that would affect the health and safety of

everyone. PA Department of Labor & Industry requires that certain procedures be available and/or posted for every employee to access. For example: Right to Know and Hazardous Substance survey forms.

Seminars & PATHS Training & Webinars (FREE)

SDIC presents seminars for our members. The seminars are a combination of active participation and training. PATHS offer a variety of Webinars throughout the year. If you do not see what you are looking for please contact SDIC Safety department.
